**AUGUST 31, 2009**

**Please Note!**

Beginning this year, all Mortgage Business Act licenses will renew annually. Renewal licenses issued in 2009 will have an extended expiration date of December 31, 2010.

Renewals now include a license fee in addition to application fees for company, branch and loan originator. The license fee is based on company Kansas loan volume.

The renewal application for an approved Mortgage Company covers your principal place of business, i.e. home office. Each additional location where Kansas mortgage business is conducted requires the submission of a separate branch office application.

Additional information concerning SAFE Act requirements and the nationwide registry will be distributed to all licensees and available on our website in December 2009.
